(54) KONJAK FOOD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide konjak (paste made from the root of devil's tongue) food containing an antioxidant substance.

SOLUTION: This konjak food is obtained by adding proanthocyanidin comprising an antioxidant substance stable against heat and alkali, in particular, extract from grape seeds to devil's tongue so that the konjak food contain it. Such a process results in producing the konjak food having both functionalities in devil's tongue and in the proanthocyanidin.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's

decision of rejection]

[Date of extinction of right]
